Welcome to Our First Newsletter!

This is our first monthly newsletter. Once a month we will bring you news and events from the local Essex County Wineries & Breweries along with featured culinary pairings from the past month.

We care about our local community
Drive safe. Drive sober.

Past Culinary Pairings

Scroll through some of our past culinary pairings to inspire your table tonight!.

It's Wine Wednesday!!

Erie Shore Vineyard Sandbar Reserve 🍷 creates a healthy pair with this cauliflower bowl. 🙌

Interesting Wine Facts and Tips

1. To become more aware of the wine you like and dislike, use these five easy steps to tasting wine: sight, swirl, smell, sip, and savour.
2. Learning how to smell and describe wine is very important because more than 80% of your ability to taste comes from your ability to smell!
3. Red and Rosé wines receive their colour from contact with grape skins. Although red wine can only be produced from red grapes, white wine can be produced from both white and red grapes.
4. There are approximately 20 million acres of grapes planted across the world; thanks to this number, grapes are ranked as the world's number one fruit crop.
5. VQA stands for Vintners Quality Alliance. It is the stamp of approval that ensures 100% of the grapes and juice that went into making the wine you're serving or buying are guaranteed to be from the province of Ontario.
6. On average, there are about 75 grapes in each cluster.
7. One grape cluster equals one glass of wine.

8. A glass of wine (about 4 oz.) contains about 85 calories.
9. You should only fill your wine glass about 1/3 of the way full to allow enough room for you to swirl, aerate, and smell your wine.

Fun Beer Facts

Trivia:

Did you know that Japanese sake is actually a type of beer, not a wine?

Your tongue has about 10,000 taste buds, so put them to good work and try a new beer!

85 to 90% of beer consumed in Canada is manufactured in Canada. How many industries can say the same thing?

Canada has one of the highest beer taxes in the world.

In Canada, beer has 3 times the economic impact of wine and spirits combined.

The Canadian brewing industry has reduced its energy consumption by 58% since 1990, which is beneficial to the environment and saves costs.
